

Despite Mother Nature, things are coming up green at Twin Oaks!

Mr. Eric Spooren and his Entrepreneurial Club, along with the help of the Earth Rangers, have been putting their green thumbs to work and filling up our newly purchased greenhouse. All of the plants have been sown from seed and will be ready for sale at the Fun Fest on June 13th. Plant prices will range from \$1 to \$3 and will include many popular garden favourites such as kale, cucumbers, and a variety of herbs. All profits will be injected back into our outdoor classroom project.

Be sure to stock your garden with plants grown right here at Twin Oaks!
